

Munro Stainless Steel Irrigation Foot Valves – 2" & 3"

The only foot valve designed specifically for the irrigation industry, these high-quality, spring-loaded foot valves are non-corrosive and available in national pipe thread or PVC slip. With flow velocities similar to the next largest sized valve on the market, this unique product offers unparalleled advantages.

ADVANTAGES

- Easy to use foot valve features a stainless steel basket strainer
- 1/8" perforations
- Repairable
- Stainless steel components: assembly bolts, springs, strainer
- Will perform in any position

Did You Know?

If you have a Munro 2" or 3" foot valve, you can purchase our new basket strainer with a flange that will connect directly to your existing Munro foot valve.
