

The Market Leader in Pump Controls

Whether you need a simple pump start relay or a complex custom pump control, Munro has got you covered. We are the only manufacturer focused on providing the highest quality and most innovative pump controls for the irrigation industry, all at a cost effective price point.

- **Custom controls** – From controlling multiple pumps to various stop/start options and loads of special features and functions, we'll create a control for your unique application.
- **UL-50 Type 3R listed enclosure** – Stainless steel or powder coated steel, our enclosures are UL rated for outdoor use and stand up to any plastic box on the market.
- **Simple, to meet your needs** – We keep all of our designs, from our standard StartBox through our custom controls, simple to install, operate and service for end user satisfaction and cost effectiveness.
