Safe Reduced External Amperage – By the end of 2021, all control power leaving a Munro box will be low amperage rated so that risk to people or pets is minimized.

UL Listed – Every single component used is tested, approved and certified by Underwriter’s Laboratory to assure safe operation.

Built Tough – UL Nema 3R control enclosures are designed to provide protection to last in all environments.

Easy to Install and Maintain – Color coded wire leads make wiring Munro boxes a simple process.
